

Thankful

The month of October is all about Thanksgiving. At Restore Stouffville we have many things to give thanks for.

We are thankful for three new Care Planners who were trained this month.

We are thankful for the four individuals/families who have reached out to Restore and are receiving help from our Care Planners

We had our first Enrichment Seminar for our Care Planners, learning about Mental Illness and how it can impact our care for some of the individuals reaching out for assistance.

We are thankful for new churches from Stouffville joining us in our vision to care for people in our community using The Restore Method of Care.

We give thanks to God for every person and family who have experienced the restorative influence of Care Planners who have faithfully walked with them through several tough valleys.

REACHING OUT

Something we see over and over again is people calling us overwhelmed by the circumstances they find themselves in. Whether it is rent that has fallen behind, or children with special needs and the challenges that brings, our Care Planners help them by connecting them to the resources in York Region. The privilege of breathing hope into their lives has a way of bringing with

it energy to face the next mountain. Issue by issue, our Care Coordinators and Care Planners work until we have done what has been asked of us -- as far as it is possible. The work the Care Planners do, is important and will never be forgotten by those on the receiving end of the hand that has been extended to them. It makes me think of the time Peter tried to walk on the water with Jesus, but the wind and waves terrified him, the sinking was instant. Christ reached out His hand and rescued Peter. At Restore, we are the hands and feet of Christ to many who feel like Peter. May God continue to strengthen the Care Planners in their important ministries.

Save the Date

The Coldest Night of the Year even for 2018 is going to be on February 24th. We hope that you can join us! Now is the time to begin building your team. We will keep you posted as details are released to us.

Care Planner Enrichment Seminar

Our next Care Planning Seminar on the Topic of Mental Illness is Nov. 25th at 9:30am – 10:30am at In2One in Stouffville. This session is for our existing Care Planners. If you were not able to join us on Oct. 26th, please come on Nov. 25th. I will bake some muffins for you and have some fruit as well! It will be a great hour and one you will not want to miss. I hope to see you there.
